To C. S. Baalasundaram Iyer, Esq., B. A.,
Chief Secretary to the Government of Mysore,
B A N G A L O R E.

SIR,

I have the honor to state that in view of the coming -- Census, I propose to equip the Press in good time and I beg to -- recommend the following facts for the consideration of Government.

2. A sum of Rs.30,000/- is being spent every Census season for purchase of type for coping with the Census work. This type, it has been found by experience, gradually gets absorbed in general work, so that when the next Census comes fresh ---nt is being made for the purchase of type.

The monotype composing machine which was installed nearly ~~two~~ two years ago has been doing good work. The one machin we have now got in the Press is specially engaged on gradatio list work which amounts to nearly 800 pages. If one more machine is installed with a view to handle the Census work without any further grant of money for type, we would not only have done all the Census work with satisfaction on this machine, but ~~this~~ the machine itself would be an asset to Government, doing useful work even long after the Census is over. One machine will cost approximately £.900/-. In making the estimate I have omitted all the parts which are common to the machine we now have and the one I propose to order, thus effecting a saving

of nearly £.150/-.

4. Allowing for depreciation on the machine for the next .... years during which the Census may last, at 10 % the type bill for Census work would only come to about £.500/- or nearly -- Rs.7,500/- as against Rs.30,000/-. There is therefore a distinct advantage to Government in ordering the machine.

5. I beg also to state that work will be greatly facilitated by the purchase of one Thompson's Typecasting machine with Lead and Rule attachment in addition to the one we now have, will enable us not only to cast ~~xxxx~~ all the additional type required but also to prepare leads and rules of any size we want. I beg that sanction may be accorded to the purchase of a Thompson's Typecasting machine with Lead and Rule attachment at an approximate cost of Rs.8,000/-.

6. I request early orders of Government in this matter as will take considerable time for us to get the machines from the date of order.

I have the honor to be,

Sir,

Your most obedient servant,

Superintendent,

I have, as far as possible, eliminated all the parts common to the machine I now have and the one for which I wish to place the order. The approximate cost of the machine would come to about £.900/-. Mr. Quixley has undertaken to supply the machine and it will take another six to eight months for the machine to arrive in India. I beg to send copy of his estimate confirming the transaction. SIR,

In continuation of my letter No.2980 dated 14th May - 1919 and subsequent correspondence on the subject, I have th honor to state that definite orders of Government have not - yet been passed on the points raised in the letter under - reference. I am afraid if the orders are not passed soon, it may not be possible for me to obtain the machinery in - time. I therefore beg once again that orders may kindly be passed sanctioning the purchase of the Thompson Type Caster with Lead and Rule attachment, as described in para 5 of my letter quoted above. I also request that orders may be -- placed with the Thompson Type Machine Co., 223, West Erie Street, Chicago, U. S. A., to supply one Thompson Type - Caster with Lead and Rule attachment and other acessories complete as per the last machine supplied to us. No matrice need be ordered. Two 7 point body pieces for the mould may also be ordered in addition to the body pieces supplied with last machine.

2. I also request that orders may kindly be placed with Messrs. Stephenson, Blake & Co., Type Founders, 33, Aldersgate Street, London to supply the materials for Cens works as per list enclosed.

3. The amount for meeting the bills in connection
